

# Snow Hill

## Waterfront Park

## Amenities

### Pavilion

Large pavilion (30'x50') with 14 picnic tables for gatherings located adjacent to playground.

### Playground

Newly constructed, fully-accessible playground adjacent to pavilion with water views.

### Water Access

Available access to beach. Plans for a kayak launch and motorized boat ramp.

Snow Hill Park  
**Master Plan**

Snow Hill Park  
**Resource Page**

**30 acres** - Active Farmland  
**93 acres** - Critical Area  
**86 acres** - Forest Interior  
Dwelling Species (FIDS)

Future plans include nature center, boardwalk, living shoreline and beach expansion, disc golf course, equestrian activities.

Snow Hill Waterfront Park includes 163 acres along the Patuxent River with conservation easement with the US Navy. The park was established in 2017 providing fishing, canoe/kayak launching, sunbathing, swimming, and environmental interpretation.

In 2024, demolition of exiting sidewalks, boathouse, and pavilion were completed to make way for a new picnic pavilion, playground and improved footprint for public access. Future projects will include **hiking and nature trails, motorized boat ramp and pier, expanded parking and restrooms**. Spring 2025 is planned for bids to be released for construction.

Current plans are in review with the Critical Area Commission. Plans for enhanced entrance improvements are expected for permit review Fall 2024.
