Subject: Fwd: PROPOSED GRAVEL PIT ON MORGANZA TURNER ROAD

To whom it may concern,

We are writing you today because we are unable to attend the meeting in person regarding the Gravel Pit they are trying to put in on our road.

We have lived on Mrs Graves Road for 23 years. The main reason we purchased this property was because it was old farm land and the homes were nice and spread apart. We loved the fact that there are still farms all around us and that we are still a part of the country.

Allowing this gravel pit is a big mistake in our opinion. This area is NOT for commercial use. We have the bike trail now and we have quite a few kids in our neighborhood and further down on Grand View Haven. Our community of people are tight knit and worry mainly for our children. They will be going back to school and our roads do not need this added chaos. Not to mention the materials are not good for our environment or our lives.

There is another area on Friendship School Road, and we have heard nothing but negative about this gravel pit. The truck drivers speed off the road, they don't stop for anyone. So, if that is the case, what is going to happen to people or our children.....are they just going to fly out into the road and cause accidents.

This type of business does not belong on our country road. So, please take our opinions into consideration prior to allowing this type of business.

Karl & Amy Roche
