BUDGET; FISCAL; CONTRACTS; PROCUREMENT

7.1 Fiscal Year.

The fiscal year of the Commission shall begin on July 1st and end on June 30th of each year.

7.2 Annual Operating Budget.

7.2.1 Approval.

The annual operating budget for the Commission for the new fiscal year beginning July 1st of any given operating year shall be proposed to the Board of Commissioners, by the Director, at or before the regularly scheduled May meeting. The proposed operating budget shall be approved by the Commission on or before June 30th.

7.2.2 Balanced Budget Requirement.

The annual operating budget proposed to the Board of Commissioners as set forth herein above shall be a balanced budget wherein the projected income from all public water system customers for any budget year must be greater than or at least equal to the projected expenses to operate all public water systems; and the projected income from all public sewer system customers for any budget year must be greater than, or at least equal to, the projected expenses to operate all of the public sewer systems. Under no circumstance may a proposed water system operating budget or a proposed sewer system operating budget, respectively, be proposed and/or approved where the projected expenses exceed projected income.

7.2.3 Budget Line Item Amendment.

In the event it becomes necessary to modify any specific line item(s) in the Annual Operating Budget during the fiscal year, the Director, after having determined the necessity for any such mid-year line item adjustment, may, at any Regular or Special Meeting of Board of Commissioners, advise the Commissioners of the need for such budget line item amendment. Upon such advisement, the Commissioners shall initiate a motion and a vote to approve, approve with modification, or reject the budget line item amendment(s) proposed by the Director. Under no circumstance may any proposed or approved budget line item adjustment be approved with the intention of causing or resulting in an unbalanced annual operating budget unless the Commissioners vote to authorize the expenditure of funds from the Commission's General Reserve Fund, as discussed in Section 7.2.4, herein below, to cover the unbudgeted expenses.

A proposed line item adjustment may, in certain circumstances, be a re-allocation of income and expenses such that there is no net affect on the annual operating budget. Such a budget line item adjustment also requires the approval of the Board of Commissioners.

7.2.4. General Reserve Fund.

It shall be a goal, but not a requirement, of the Commission, as part of the annual budget preparation and approval process, to set aside a sum of money equal to seven percent (7%) of the total operating budget, to be placed into a General Reserve Fund. The balance of monies maintained in the General Reserve Fund may be utilized by the Commission to cover the costs of any unanticipated costs that the Commissioners determine must or should be incurred from time to time. This provision is intended only to establish a budgetary goal of the Commission and is not intended to create any obligation of the Commission to commit any minimum or maximum annual allocation of monies to the General Reserve Fund.

7.2.5. Debt Service Reserve Fund.

7.2.5.1. Purpose. The Commission shall maintain a Debt Service Reserve Fund, which fund shall hold all monies received by the Commission, from customers, as monthly debt- service payments to be used in satisfaction of the Commission's various annual debt obligations.

7.2.5.2. Surplus Balances. Because the debt-service requirements for Commission customers are estimated at the time a debt is incurred by the Commission, this account may, from time to time, contain a surplus balance, above and beyond the amount(s) needed to meet the Commission's annual debt obligation(s). Any such surplus balance in the Debt Service Reserve Fund shall be used by the Commission toward the costs of repair, replacements or any extraordinary expenses incurred in the maintenance and operation of the water and/or sewer systems under the control of the Commission.

7.2.5.3. Other Use of Surplus Balances. From time to time, the Commission may deem it necessary and appropriate to borrow monies from the surplus balance that may exist in the Debt Service Reserve Fund, for internal use by the Commission, for purposes other than to defray the costs of repair, replacements or any extraordinary expenses incurred in the maintenance and operation of the water and/or sewer systems. Any such borrowing of monies for any such other purposes shall be approved by a majority vote of all of the Commission members. Any such monies borrowed shall be re-paid to the Debt Service Reserve Fund together with interest at the time the monies were borrowed. The term of re-payment shall be as deemed appropriate by the Commission at the time the borrowing is approved.

All checks, drafts or other orders for the payment of money, issued in the name of the Commission shall be signed by two (2) of the authorized persons described above, by either of the following modes: (i) the authorized signers may sign an original signature on each such check, draft or other order for the payment of money; or (ii) the authorized signers may, after review and approval of a check register which has been certified by the Chief Fiscal Officer or designee to be an accurate summary of all checks to be signed for a given period, sign an original signature on each page of the check register, thereby authorizing the two (2) reviewing signers' signatures to be affixed on each check appearing on the said register.

Notwithstanding the mode of signature employed, a copy of the duly certified check register(s), for all checks signed since the last Commission meeting, shall be provided to each Commissioner at each Regular Meeting of the Commission.

7.3.2 Commissioner Check-Signing Authority.

From time to time, as may be deemed necessary by the Commissioners or by the Director, Assistant Director or the Fiscal Officer, one or more Commissioners shall be granted check-signing authority. Any Commissioner may be granted such authority through the proper execution of a resolution between the Commission and the financial institution(s) with whom the subject financial account(s) may rest.

7.4 Authority to Transfer Funds.

The Fiscal Officer maintains primary authority to transfer monies between any Commission financial account(s), as might be necessary from time to time. In the absence of the Fiscal Officer, the Director or Assistant Director may also transfer monies between any Commission financial account(s). At any given time, the necessary and appropriate documentation shall be on file at each financial institution with whom the Commission maintains a savings account to evidence and confirm the names and signatures of the persons having the authority to transfer monies from such accounts (i.e. the names of the Fiscal Officer, Director and Assistant Director).

All Commission financial accounts shall be established and maintained with the appropriate restrictions in place to preclude, under any circumstance, any and all withdrawals of monies from any account. All monies held in any Commission financial account may be accessed only via transfer to another Commission account or by the preparation and processing of checking drafts.

7.5 General Requirements for Commission Deposit Accounts.

All Commission financial accounts must be maintained by financial institutions having a branch or place of business within the State of Maryland. All uninsured balances of Commission deposit accounts must be fully collateralized by obligations of the U.S. Government or a federal

government agency. All financial institutions with which the Commission holds a deposit account must provide annual financial statements to the Commission.

7.6 Loans

No loans shall be contracted on behalf of the Commission and no evidences of any indebtedness shall be issued in the name of the Commission unless first authorized by a resolution of the Commissioners.

7.7 Contracts

The Commissioners shall approve the award and/or signing of any contract or agreement, having a total dollar value in excess of \$10,000.00, under which the Commission will become legally obligated. The Commissioners shall have the authority to direct Commission Staff to enter into any contract or to execute or to deliver any instrument in the name of and on behalf of the Commission as may be deemed necessary and/or appropriate.

The Director may approve the award of and sign any contract having total a dollar value of up to \$10,000.00, under which the Commission will become legally obligated.

7.8.1. Policy. The Fiscal Department of the St. Mary's County Metropolitan Commission shall be responsible for the maintenance of Commission's Procurement Policy. The Procurement Policy shall be a written document that shall establish in detail the policies and procedures to be followed for the procurement of goods and services by the St. Mary's County Metropolitan Commission.

7.8.2. Review and Revision. The Procurement Policy shall be reviewed at least every three (3) years, by the Fiscal Officer, the staff of the Purchasing Department, the Assistant Director and the Director, to ensure that the Policy adequately meets the procurement needs of the Commission. In the event it is determined that revisions are necessary to the Procurement Policy, any such revisions shall be drafted by the Fiscal Department and reviewed and approved by the Assistant Director and the Director. Final revisions to the Procurement Policy shall be submitted to the Commission for review and approval.

7.8.3. Conflict. All matters relating to procurement authority, procedures, approval processes, receipt of goods, payment for goods or services and any other aspects of procurement shall be governed by the said written Procurement Policy of the St. Mary's County Metropolitan Commission. Nothing in these By-Laws is intended to conflict with or to override the provisions of the written Procurement Policy and, in the event of any inconsistency between these By-Laws and the Procurement Policy, the Procurement Policy shall control with respect to all substantive policies and procedures relating to procurement.
