<b>Project Title</b> Shannon Farm Property	<b>Project Number</b> RP-1905	<b>Classification</b> Recreation and Parks
<b>Project Description</b> Design and construct a community park in the Lexington Park area. The proposed park is envisioned to provide additional passive recreational and waterfront activities such as walking, hiking trails, kayaking, canoeing, fishing, sailing, educational and cultural activities and horseback riding on approximately 212-acre property with beach access to the Chesapeake Bay. Funding for a master plan was allocated in FY2019. Funding for design and engineering was approved in FY2020. FY2022- Master Planning is completed and under review. Architect and Engineering are in process. 65% concept plans showed a significant increase in cost due to the steep slope in the first ¼ of mile of the trail connecting the parking lot to the beach. To maximize compliance with the American with Disabilities Act, the design was updated to include a bridge over the steepest area and a trail slope of no more than 5%. (Additional 1,500,000) FY2024 includes the addition of upgrades to the boardwalk to allow for heavy vehicle use and additional funding due to the relocation of the trail to avoid lands designated by the Navy as wetlands, associated surveys and additional boardwalks needed. Due to significant shore erosion FY2026 includes the addition of prevention measures including a living shoreline and breakwaters project.		 <p data-bbox="805 730 1520 842"> <b>Compliance With Comprehensive Plan Section</b>                      10.2.2.D Create new and enhanced facilities to provide recreational opportunities while preserving environmental, aesthetic, and cultural quality.
